

Khure Health - Cloud-Secure Platform

Delivering the highest level of data privacy and security

Highlights from the Service agreement between Khure Health and Physicians

- Khure Health receives full EMR dataset onto the secure and protected Khure cloud (see diagram)
- Khure Health's process is compliant with privacy regulations (PIPEDA, PHIPA, AB HIA).
- Under the regulations, the data custodian authorizes Khure as an agent involved in the delivery of patient services, therefore consent is implied. Khure is responsible for the same use, disclosure, security and storage as the custodian.
- Platform is hosted on Microsoft Azure cloud and further fortified by 

Disclaimer: Not an exhaustive list, nor should it be regarded as an endorsement by the CPDN. Physicians will be prompted, must read in full, and agree to the Khure Health Terms of Service and End-user License agreement prior to utilizing Khure's technology (at no cost).

- Medstack® protective shield
- 24/7 security monitoring
- Microsoft Azure Firewalls, etc.
- 256-bit encryption
